Subject: RE: Updating Outpatient Docs

Attached is the revised document which includes Cia's change request from 1/19. For quick reference, a Summary of Changes for Claims has been added at the start of section 7. The major change since the last document is the inclusion of the new line-level duplicate check rules beginning on page 9, and the service limit changes on page 8. Other changes are primarily internal, clarifying language and adding detail.

Subject: Updating Outpatient Docs

We have a new Outpatient meeting next week. Any changes that have been made since the last need to be updated in the documents so we can get the latest version in the hands of the plans. I know Encounters and Ref have changes.

Please include a list of changes in the doc to make it easier for the user to identify what has changed and where to find it.

Thanks,

Mike
